Classic Hits Jukebox

TouchHits are proud to unveil our new Classic Hits digital jukebox. This state of the art jukebox combines style and protection by merging a robust, slimline cabinet that's only 180 mm deep, with an 8 mm acrylic screen backed by a

protective touchscreen bezel and housing. Running on the latest TouchHits technology, the Classic Hits offers thousands of audio and video hits on demand from the old to modern day classics as well as many more besides. If you're

looking for a jukebox that combines security with the latest in modern technology and styling, to blend seamlessly with its surroundings, then you won't find better than the new Classic Hits jukebox from TouchHits.
